NEGRO'S TRIAL SET FOR FEB. 5

Murray, Ky., Jan. 12.—The Governor of Kentucky, appealing to a grim visaged mob bent on vengeance, was a never to be forgotten scene witnessed here today. With all the dramatic power of his being, Gov. A. O. Stanley, who had rushed to Murray from the Capitol, after learning of the situation here, appealed to the mob not to disgrace the fair name of the State, but to allow the law to take its course. The Governor alluded to the disgraceful scenes that had stained Western Kentucky in the past and more recently at Paducah, when two negroes were lynched in broad daylight and pleaded with his hearers for the majesty of the law, which he declared was the only bulwark of the people.

Gov. Stanley arrived here in the cold gray dawn, his coming being unexpected except by a few officials he had been in communication with by long distance. The Governor at once saw the tenseness of the situation and after a hurried conference with the officials he made up his mind to face the crowd demanding vengeance in the hope that he could prevail upon them to disperse and let the law take its course.

The courtroom was packed and jammed with an excited throng when the Governor arose to address the crowd. Bringing all the powers of his dramatic talent into play and with the seriousness of the situation before him, Gov. Stanley delivered an appeal, the like of which probably was never before heard in this State. With utter fearlessness pictured on his features the Governor denounced mob violence and declared that he was prepared to sacrifice his own life before the negro prisoner should be given over to the mob.

The Governor's remarks were well received by the big crowd and by the time he had concluded the excitement was somewhat allayed. The Governor was interrupted only a few times and these interruptions, coming from the rear of the courtroom in the shape of shouts, "Let us have the nigger."

After the court room had been vacated by the crowd it was observed that the situation had greatly relaxed and there was every prospect that the law would be allowed to take its course. Another consultation was held by the Governor with the court officials and it was announced that the trial would be held about February 5. When this announcement was made by Attorney George Duguid, brother of the slain man, and assistant in the prosecution, to the big crowd that thronged the public square there were murmurs of dissatisfaction by some, but on the whole the crowd seemed satisfied and the mob spirit was allayed. When Gov. Stanley went to his special train to return to Paducah he was escorted by a great crowd which cheered for him as the special moved away. He was accompanied by Judge Bush, Commonwealth's Attorney Smith and other officials.

The crowd divided into groups after Gov. Stanley departed and discussed the proceedings, expressions and sentiments showing that many had been disappointed by the clever tactics of their Governor. Before the February term of court is commenced the State troops may be re-called to Murray as a company of it probably will be ordered when the trial is held next month, if back at home. Hopkinsville also has a company which could reach Murray in a short time.

Excitement at White Heat.
Excitement, which had not abated since the killing of Guthrie Duguid, ex-policeman, by Lube Martin, a few weeks ago, was at a white heat last

night and this morning. All business houses were closed. All interest was centered in averting bloodshed, which seemed imminent as the excited mob had practically had the town terrorized since it became known yesterday that the prisoners, Ann Sylvester and Lube Martin, had been sent away for safe-keeping until the principal witnesses for the defense could be secured.

LET US HOPE HE IS RIGHT
Congressman Kincheloe Does Not Believe That a Shortage of Print Paper Exists.

Washington, D. C.—In a statement issued by Congressman David H. Kincheloe he declared he did not believe any shortage of print paper exists and that there is a combination among the paper manufacturers to boost prices.

"The manufacturers of news print paper started out in concert, in my judgment, to create the impression that there was a shortage of supply of paper in this country, and this was the moving cause of the high prices, and in order to convince the newspapers of the fact of the shortage they would not fill in full an order for print paper. For instance, when a newspaper would place an order with a manufacturer for, say, ten tons of news print paper, they would sell this newspaper only eight and one-half or nine tons, and give as their reason for so doing that paper was scarce and the supply was diminishing every day. In this way a great many newspapers became frightened and paid, if they were able, whatever price the manufacturers asked, thinking that the supply would soon be exhausted. In this way many newspapers of the country have been unjustly treated and greatly imposed upon."

CONFISCATED ELECTION BET
Pennsylvania County Claimed \$1,600 Because Law Was Violated.

Butler, Pa.—Dr. E. L. Wasson, former member of the Legislature and treasurer of Butler county, wagered \$1,000 to \$600 that Hughes would be elected, and I. G. Smith, wealthy oil man, took the short end. Smith died before the election result was known, and the money was paid to the administrator of his estate.

Knowledge of the bet came to the ears of the county commissioners, and proceedings were begun under the anti-bet law, which provides that the authorities may collect all bets, and, if necessary, enter suit to do so, in this way collecting double the amount, a penalty of a sum equal to the best being provided in the act. The commissioners notified the stakeholder and the administrator of their contemplated action, and rather than stand suit the administrator agreed to pay the \$1,600 to the treasurer of the poor district.

HEADS BOARD OF CONTROL

Hopkinsville Man Succeeds J. Norton Fitch, of Nicholasville, Robert A. Cook, of Hopkinsville, was elected president of the State Board of Control of Charitable Institutions Thursday to succeed J. Norton Fitch, of Nicholas, whose term as a member has expired. The session of the Board was held at the Western Kentucky Hospital for the Insane at Hopkinsville. Mr. Cook is a Republican.

Hog Cholera Doomed.

Frankfort, Ky.—"I hope before the end of my Administration to see hog cholera eradicated from Kentucky," declared Commissioner of Agriculture Mat S. Cohen, chairman of the State Livestock Sanitary Board, after a conference of the board with representatives of the Federal Bureau of Animal Industry in regard to co-operative efforts for the control of all contagious diseases among animals. Special efforts are now being made for the eradication of hog cholera, which cost the agricultural industry of the State \$2,000,000 in 1912. Commissioner Cohen said they had agreed on a plan of work which, he believes, will be sent to Washington for approval.

Since 1912 hog cholera has been reduced about half, principally due to rigid inspection and disinfecting of stock cars during the fight against foot and mouth disease. The Kentucky department endeavored to continue the practice, but could not get the co-operation of the Government and other States.

THAW ATTEMPTS TO END LIFE

Cuts Wrist and Throat
When Police Seek
His Arrest,

BUT EXPECTED TO RECOVER

Pittsburgher Hurried to Philadelphia Hospital in Unconscious State.

TWO VERSIONS TO THE AFFAIR

Philadelphia, Jan. 11.—Harry K. Thaw, wanted by the New York authorities on charges of kidnaping and assaulting a Kansas City boy, was found in an apartment house at Fifty-third and Walnut streets, West Philadelphia, by the police today with his wrists and throat cut. He was taken to St. Mary's Hospital in the northeastern section of the city and his condition is said to be serious. In the absence of direct information from physicians attending him there were conflicting reports as to how serious his condition is. Dr. John Wanamaker, third, a police surgeon, said cursory examination of Thaw's wounds indicated he had a fair chance to recover. His wrists were hacked several times and there were two gashes in his throat.

There are two versions of the affair. One is that Thaw was located in the house and that when he learned it was surrounded he attempted suicide.

The other version is that Thaw attempted suicide this morning; that persons in the house communicated with the Thaw family in Pittsburgh; that the family telephoned back to Dr. Elwood Kirby, who has attended members of the Thaw family and that Dr. Kirby in turn notified the police.

Thaw was removed from the house shortly before 3 o'clock. A small crowd that had learned of the affair gathered and were rewarded by seeing Thaw carried out on a stretcher. He was completely covered with a blanket and was placed in an ambulance for the five-mile journey to the institution.

Urges Prohibition Law.

Salt Lake City, Utah, Jan. 9.—Governor Simon Bamberger at noon today delivered his message to the twelfth Utah Legislature. He declared the most urgent legislation to be considered by the Assembly was the enactment of a prohibition law. He also asked for a public utilities board that would have full control of rates charged by all public service corporations.

"Buffalo Bill," Col. W. F. Cody, the idol of American youth, died at his home in Denver last Wednesday. He was one of America's famous showmen. For four hours Sunday his body lay in state in Colorado's Capitol building, and funeral services were held late that afternoon.

Terms More Severe Than Foe Expected—Conditions Outlined

Washington, Jan. 11.—The Entente Allies, replying to President Wilson's peace note in a joint communication, express the belief that it is impossible at the present moment to attain a peace that will assure them reparation, restitution and such guarantees as they consider as essential.

In a separate note, the Belgian Government expresses its desire for peace, but declares it could only accept a settlement which would assure it reparation and security in the future.

Both of the communications, made public by the State Department tonight, are dated January 10, and were transmitted in translations from the French texts through Ambassador Sharp at Paris.

RECENT DROP IN QUOTATIONS

British Clutch on Wool Supplies
Creates a Serious Situation
In This Country.

DOMESTIC WOOLS, VERY HIGH

New York, Jan. 9.—Buyers are beginning to come into the markets more freely and most of them are in search of merchandise. A few have stated that they are here principally to hurry deliveries on old orders and to look over the situation preceding the meetings of the wholesale jobbers next week. The buyers who have been here three or four days express surprise at the firmness of agents in view of the cotton decline since they were here last, and as they are not being offered as many goods as they anticipated, they are at a loss just how to diagnose the condition of things.

There was less business doing in the gray goods division than on Friday and Saturday. At the same time prices were firm and offerings from mills did not show any increase. Some of the users of convertibles are making more definite inquiries concerning plain cloths, and they are open now to listen to offers on small lots.

No Chance For Lower Prices.

Merchants are finding much to interest them in the efforts of retailers to secure clearance sale business at this time. The very positive statements of the retail trade that present prices are to be the lowest of the year are readily understandable when some of the quoted prices at retail are compared with costs of replacement today. Undoubtedly a great deal of the merchandise offered at retail now has been held over for two or three months, especially in the piece goods lines. There is little or no chance for retailers picking up merchandise in the primary markets at prices they are now quoting.

Visiting retail buyers are making a critical examination of the new offerings of wash goods and white goods novelties, and they are ready to buy small lots of the higher-priced materials that are being shown if they can find them in first hands. The largest relative volume of business ever booked on the higher-priced wash fabrics was done for the coming season, yet the keen search for still more novelties continues.

Wool Supplies a Problem.

In all divisions of the woolen industry anxiety is expressed concerning the supplies of raw material from abroad. The British Government is tightening its control of colonial supplies all the while and South American wools are quoted at very high prices. Domestic wools are being notified that it will be im-

possible to supply some of the goods in future unless the unforeseen happens and new sources of wool supplies are developed.

AGAINST PROPOSED TAXING-LAW

Editor Richardson of the Glasgow Times, is very much opposed to the proposed taxing-law, and has utilized quite a good deal of space in his paper answering Secretary H. G. Skiles, of the State League, who takes exceptions to an editorial in the Times of December 15th. The Times proposes a tax of one cent per bushel on coal and ten cents per gallon on whiskey as a means of wiping out the State debt, and figures it out in an editorial in a recent issue of that paper under the heading "Astounding Figures," as follows:

"Further investigation into the Times' proposition that, rather than a revolution in the present taxing-system of Kentucky, a single amendment be made providing for a ten-cent per gallon tax on whiskey and a one-cent per bushel tax on coal, reveals most astounding figures.

"There were produced, last year in Kentucky, 25,000,000 tons of coal. Reduced to exact figures, this means 50,000,000,000 pounds, and a yearly income to the State, at one-cent per bushel, of \$6,250,000—enough alone to extinguish the State debt, and still leave nearly \$2,000,000 in the State treasury.

"There were manufactured in Kentucky, for the year 1916, 2,772,680 barrels of whiskey. With a tax of ten cents per gallon on this liquor, the revenue for the State would foot up, from this whiskey alone, \$11,090,720—a sum that would pay the state debt three times over.

From the taxing of both coal and liquor, at the rates proposed in the Times, the income to the state would be annually \$17,340,720, or an amount sufficient to pay the State debt of debt four times over. These amazing figures would open the eyes of every tax-payer.

As it is apparent that there would be no necessity for such a tremendous surplus as this, The Times makes the further suggestion that one quarter of a cent tax per bushel on coal would bring in a revenue of \$1,565,000, and a tax of five cents a gallon on whiskey would at once put \$5,545,360 in the State treasury. And these trifling taxes would mean the extinguishing of the State debt in one year, and a surplus of at least \$2,500,000 on hand in the State's banking account. It is a rosy picture, and one based on the coldest of cold facts.

"Extinguishing the State deficit of something like \$4,000,000 is as easy as falling off a log. The coalmen ought to be forced to pay a tax for the manner in which they are robbing the public at the present price of coal, and the whiskey people ought to stand a five-cents-on-the-gallon tax for the general harm liquor does, and the enormous fraud perpetrated by the trade.

"The Times proposes to hammer along this line, if it takes all the year.

"If an extra session of the legislature is called, it should be for enacting a law taxing coal and liquor, as above recited.—AND NOTHING ELSE."

TOWN LOTS.

Too High So the Residents Moved the Town.

Because of the prices the owner of the town site of Keystone, a thriving village in Logan county, Kansas, placed on town lots, the residents of the village and officers of the railway decided to move the town. A new town site two miles northwest of the present village was quietly bought, and the city began its move overland.

Sam Wong Settled.

Douglas, Ariz.—When Sam Wong a Chinese merchant of Cananea, Sonora, refused to pay a fine of \$1,000 on the charge of conducting a gambling house, he was marched to a nearby cemetery and faced with a firing squad, according to an account published there. Then Wong paid the fine. The money, together with fines collected from other Chinese, the account adds, was turned over by the municipal authorities to the schools with the stipulation that it was to be used to purchase sewing machines for the domestic science department.

"Menaces to Community"
Out for Drill.

MARRIAGE PROPHECY GIVEN

Speaker Thinks Mental and Moral Fitness Will Be Demand-
ed of Husbands-to-be.

PARENTS BLAMED FOR MIS-FITS

"There is an army of slab-sided, round-shouldered, fish-eyed young men in this city, their fingers stained with nicotine, aimless, starting from anywhere and going nowhere, open to any crime and a dangerous menace to the community. They sponge on their mothers or sisters, spending their time in idleness. Talk about universal training—I would like to be a Sergeant with about eight stripes on my arm and have 200 of them down on Long Island for drill. I'd get something out of them or make life miserable for them."

Chief Magistrate William McAdoo said to the Bible Class of the Fifth Avenue Baptist Church.

He said he thought the time was coming, and might come in his lifetime, when men will have to get a certificate of moral and physical fitness before they can marry. He advised young men to be careful of the company they keep and to marry only for love.

"Character, influenced by a broad and sympathetic vision of life," he went on, "is the most valuable asset a young man can possess. A man cannot have a grand and noble character unless he has the capacity to see the good of God. We don't see God through the intellect. Scientists have tried to see God through the intellect and have failed.

Must Clean "Windows of Heart."

"It is only through the windows of the heart we can find Him and then not unless the windows are clean of the dust and grime of selfishness, greed, ambition and lust."

The Magistrate then turned to the successful man of to-day.

"To be successful," he said, "a young man must do something he wants to do. If I had a boy and he came to me and said he wanted to be a shoemaker I would say, 'All right, my son, be a good shoemaker. Make the best shoes in New York.' An honest shoemaker who makes honest shoes is worth 500 lawyers who botch their cases, or 500 doctors who bury their patients."

He said parents frequently are to blame for "misfits" and failures because they choose work which they consider more respectable for children whether they are or are not fitted for it or interested in it.

"The happy marriage," he said, "is founded on love and nothing else. The marriage of convenience is nothing more than a bargain and sale marriage.

Cause of Hasty Divorce.

"I know many of these marriages continue on a plane of conventional respectability and social position, but they are not really happy. I don't mean by 'love' just a silly, maudlin sentiment—becoming enamored of a pretty face—but real love. I do not advocate hasty marriages. It is the hasty marriage that is leading us to the hasty divorce.

"I think the time is coming when men will have to have a certificate of moral and physical fitness before they marry. It may come in my lifetime and some of you may come to me for a certificate."

Mrs. McAdoo and John D. Rockefeller, Jr., were among the 200 who heard the address.—[New York World.]

THE TAX REFORM.

Tax reform in Kentucky is not so much needed in rates, or particularly in values, but in more rigid compulsory assessment laws. To reach property that is not listed at all. Classification of property for taxing purposes has never strongly appealed to us. However, the voters have, in the proper way, authorized the law-makers to classify and apply a higher rate to one class than is applied to another. From an examination of the proposed bills, we are convinced that, in the classification of property and the application of rates, the Commissioner goes far beyond anything the people dreamed of or will ever approve.

The farmers and other citizens, who have their funds invested in lands and other tangible property from which they derive a support, are called upon to pay all the taxes for county, town or city, and school purposes, and then pay the same rate for the support of the State Government as is paid by the bondholders, money-lenders and stock-speculators. It matters not how much of this intangible property is held, the owners contribute nothing on it to support the paupers in the almshouse, to keep up the roads, to pay the salaries of the County Judge, County Attorney, School Superintendent, or the policeman who protects their families and property.

Then the man who converts his property into cash and piles it up in bank contributes practically nothing (10 cents on the \$100) to the support of the State government and institutions, and nothing at all toward the support of the county, town or school. Will this character of discrimination encourage development of the vast resources of the State? Will it have a tendency to stimulate trade, and put money in circulation and build factories, or will it be an incentive for the withdrawal of money from wealth-producing investments to be placed in banks to earn interest and practically escape all taxation?

The contention is this will cause the listing of the money in banks. Whether it does or not, the bill contains a provision by which listing is compulsory. The same process could be applied successfully should the rate on money be fixed somewhat in proportion to that upon other property.

It is claimed that millions in notes, stocks, bonds and money escape taxation, and to bring same from hiding the owners must be coaxed by such discrimination as suggested; that much more intangible property will appear if there is but little taxes to pay. Naturally, such a law will increase the intangible property. Whenever you practically relieve one class of property from taxation, and thereby necessarily increase the burden on another class, there will be a shifting of funds from the heavily taxed to the slightly taxed or nontaxable property.

To off-set this exemption to the owners of millions of intangible property from local taxation, the bill provides that the farmer may have his implements exempt from county and school tax. Why, the exemption allowed to housekeepers under the constitution, according to the last report of the Board of Equalization, amounted to two and one-half times the value of all the agricultural implements and household goods in the State combined. That report shows: agricultural implements, \$2,280,497; household goods, \$14,663,382; exemptions to housekeepers, \$41,182,725.

Another discrimination, which we believe objectionable, is in favor of short and against long loans secured by mortgages, and long time purchase money notes. These securities, running as much as three years, are the only forms of intangible property taxed in addition to the State rate. The United States Government, through the operation of the Farm Loan Law, is trying to help the farmer by granting long credits and easy payments, but under this bill, long loans are actually penalized.

As an additional inducement to the tax dodger to list his stocks, bonds, &c., (for State purposes only) the proposed bill would release him from paying the taxes that have justly accrued on his property for the last five years; provided, he will come along now and voluntarily disclose his holdings. There is to be no claim for back taxes. Even this will not catch him. He will not

take this chance in view of the constitution of the State which we contend prohibits such a donation or release. Section 52 reads as follows:

"The General Assembly shall have no power to release, extinguish, or authorize the releasing or extinguishing, in whole or in part, the indebtedness or liability of any corporation or individual to this Commonwealth, or to any county or municipality thereof."

Again, we are not opposed to a tax commission if, in the creation of, and the powers given to it, the substantial rights of the citizens are preserved. The one proposed by the bill consists of three members, the only necessary qualifications of each is that he be a citizen of the State, a freeholder, 30 years old, and either a Democrat or Republican. They may all live in the same county or city. No bond is required, and yet, they are given unusual and extraordinary powers. They actually fix the value of every species of property in the State for taxing purposes. Not only that, but they say how much the combined property of any one class in each county shall be listed at. True, the assessor takes a preliminary list which with the transfers are sent to this Commission. Then the County Board of Supervisors are directed to bring the value of each class up to whatever this Commission think it should be, or feel disposed to assess. Thus, the assessor and the county board simply become apportionment officers and not in fact assessor and supervisors of assessments. If these officials fail to raise the assessment up to the Commission's figures, then it, (the Commission) is authorized to re-assess the county at the county's expense, no part of which is paid by the holder of intangible property.

The information furnished the Commission by these real estate transfers is worthless, because a large number of conveyances, and in the cities practically all of them, recite "one dollar and other considerations." In fact, real estate agents generally advise this for the purpose of concealing the real consideration. This is not practiced so much in the farming sections. The last legislature had an opportunity to correct this and pass a bill requiring the real consideration to be stated, but the proposition was turned down. No suggestion in this Tax Commission's report that this practice be stopped, and no such provision in any of the proposed bills.

The commission is to fix the values of railroads, public service corporations and distilled spirits, which duties have heretofore been performed by the Railroad Commission and the Board composed of the Auditor, Secretary of State and Treasurer, all elected by the people; and in recent years no tax-payer can, as we believe, justly contend that these officials have not in these matters served faithfully and admirably.

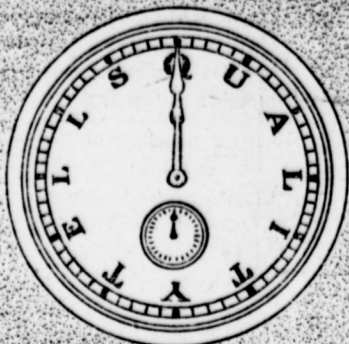

The railroad commissioners are elected from districts, and they are given no such far-reaching powers as the proposed commission is given. Powers that vitally affect the property rights of the humblest citizen as well as those of the gigantic railroad and the bondholder. Why not divide the State into districts and let the people choose these important officers? We believe this would be more democratic and satisfactory.

A CALLED SESSION.

The Governor, in our judgment, should give a fair opportunity for full and free discussion of the proposed tax measures before exercising his constitutional right in calling a special session of the General Assembly with a view of hastily revolutionizing our taxing system. There has been very little discussion by the press of the State. Some of the city papers and commercial bodies urge quick action, assuming, it seems, that these particular bills will be promptly passed and signed by the Governor; but the good points and objectionable features have not been pointed out sufficiently to crystallize the sentiment of the people, or even the members of the Legislature. We have survived under the present system many years, and while the State is in debt, her credit is still good. The regular session is less than a year in the future; and granting that at an extra session beneficial laws would be enacted, they could apply to only one assessment that any laws enacted at the regular session would not apply.

Members (except hold-over Senators) of the General Assembly to convene in January next are to be elected this fall. Candidates can receive and give information, get the views of the people of their respective districts and be prepared, (those who are elected), to give real relief to the taxpayers of the State. Besides, an extra session would probably cost the people \$125,000. Should the Governor "take a chance"?

It Was Midnight November 4th 1901 In Durham, N.C.

It was midnight, cold and dark. The calendar told the date—Monday, November 4th, 1901. They tell me I opened my eyes and blinked in the glare of the big electric lights. Around me were men in spotless white talking in low tones.

"Jim," one said, "we have been watching for this little fellow for a long while and now he's here."

Jim picked me up, looked me over, struck a match and took a long, deep puff. Then he took another.

"Gentlemen," he said, "He is perfect. Quality does tell. You can't fail to recognize good blood. His mother was a Virginian, his father an aristocrat of the Carolinas. He comes from the very best stock—the very sweetest, ripest, mellowest Virginia and Carolina tobacco, and we will raise him right in one of the whitest, cleanest, healthiest homes on earth."

Even then I was glad all over to hear his words. It is a great thing to have real breeding behind you, to know who your folks are. It starts a fellow right.

We Folks of the South KNOW good blood.

We Folks of the South KNOW good tobacco.

That is why I just had to have heaps of friends down South here. I want you, Mr. Reader, for one of my friends, and it means a whole lot when I say—

It seems from reports that the members of the Legislature are taking more interest than the people generally in an extra session and the proposed tax bills. Perhaps since the last session they have more keenly realized the need; and, then it may be the last chance some of them will have to help relieve the Treasury of its deficit—or cash.

Native Ohio Countian Makes Strong
Appeal to Henderson Jury.

The trial of C. M. Wyne, charged with the murder of Dr. Miles C. Dunn, at Henderson, August 10, 1916, was brought to a close Saturday at 2:15 o'clock when the jury after deliberating for an hour and ten minutes, rendered a verdict of not guilty.

The case has a local coloring inasmuch as Mr. Ernest Woodward, who Ohio county is proud to claim as her own, was chief counsel for the defense, and made one of the most stirring addresses to the jury in behalf of his client that has been heard in the Henderson court house in many a day. Mr. Woodward's many friends in Hartford and Ohio county are delighted to learn of this signal victory in his newly chosen home.

BIRCH SHIELDS, Ch'm'n.

One of the heaviest snows here in years began falling Friday night and continued without let up, only at intervals, all day Saturday. Sunday was bright, the sun shining all day, but Monday morning greeted us with another precipitation of the "beautiful" and as a result Ohio county is covered with a blanket of snow, we should judge, eight or ten inches deep. No doubt there is lots of livestock in this county suffering from the snow and extreme cold weather, but "it's an ill wind that blows nobody good," as the heavy snow is a boon to those who have sown wheat.

SUDDEN DEATH

Of Mr. Geo. W. Bunker—Born At Elizabethtown in 1832.

While on his way from one room to another, at his home on Clay street, Saturday morning about 7 o'clock, Mr. George Winfield Bunker reeled and fell—dying almost instantly. He ate some Bologna sausage the night before for supper and it is thought that heart trouble, superinduced by indigestion, caused his sudden demise.

He was born at Elizabethtown, Hardin county, June 27, 1832, and would have been 85 years of age June next. He came to Ohio county when about 15 years old, and married Miss Jane Wilhite, and to this union was born one child, Miss Mary Elizabeth Bunker, who with her mother survive.

Mr. Bunker was at one time deputy sheriff of Ohio county and was well and favorable known.

The funeral was conducted at the Baptist church Sunday afternoon at 1 o'clock by Rev. Robt. Bennett, after which Hartford Lodge No. 675 F. & A. M., took charge of the remains and laid them to rest in Oakwood cemetery.

Uncle Ab Chapman Dead.

Absalom Chapman, one of our oldest citizens, passed away at eight o'clock on Tuesday evening, Jan. 9, 1917, after an illness of several months of kidney trouble incident to old age. Uncle Ab as he was familiarly known, was born June 24, 1833, and had been married twice. His first wife was Miss Mary Anna Brown; to their union was born five children, four of whom survive: Mrs. P. H. Hobdy, James Mc., Mrs. Richard Hobdy and William Bailey Chapman. His wife Anna Brown, died Sept. 10, 1868. On May 15, 1870, Uncle Ab married Miss Juda Loney and this union was blessed with the following living children: Ellis, Mrs. John Carter, John H., Mrs. Leslie Chinn, Henry L., Charles A. and Mrs. Phocian Wade. Aunt Juda, his second wife, died June 6, 1902.

Uncle Ab united with the Baptist church at West Providence at the age of 25 years and lived a constant christian life. He having expressed to his family physician, Dr. J. S. Smith, with whom he talked for several hours on Monday, that he was ready and willing to go.

Funeral services were held at his residence one mile and a half south of McHenry, Rev. Creal, of Beaver Dam, in charge, after which his remains were laid to rest in the Chapman burying ground. One of the largest crowds that has ever attended a funeral here being present to pay their last respects.

Peace to his ashes. C. W. M.

CONNECTS PROMINENT MEN WITH "LEAK" PROBE

Thomas W. Lawson, before the House Rules Committee in Washington investigating the alleged gambling pool leak on the President's peace note, declared yesterday that Chairman Henry had given him the names of Secretary McAdoo, H. Piny Fiske, a New York banker, and a Senator referred to only by the initial "O," as having profited by so-called advance information on the note. Paul M. Warburg, Ambassador von Bernstorff and Secretary Lansing were also mentioned. The names of Joseph P. Tumulty and New York bankers also were mentioned by Lawson. Congressman Henry denied that he ever mentioned any name to Lawson. McAdoo, Tumulty, Gibbons and others issued statements declaring Lawson's charges false. Subpoenas were issued for many bankers and newspaper men.

HALF OF CROP IN DISTRICT HAS BEEN SOLD

From estimates furnished by interested persons in the several tobacco markets of Owensboro and the Green River district, there has been delivered one-half of the tobacco crop of 1916. This is taking for granted that the early estimate of a fifty million pound crop to be delivered, which now looks very excessive. If the crop works out 45,000,000 pounds, which is placing it high, those best informed will be surprised, says the Owensboro Messenger.

In pounds the deliveries in all Green River District markets are: Owensboro loose leaf floors, 11,500,000; Livermore loose leaf floor, 1,000,000; Gorman & Co. by co-operative pool, about 7,000,000; C. O. Tuck & Co., Equity pool, 2,500,000; Ross-Vaughan Co., individual contracts, 1,500,000; individual buyers, 1,000,000. Total 24,500,000 pounds at an average price of \$11 per hundred, amounting to \$2,695,000.

Believe In Herfords.

Mr. James T. Spurlin, of the De-poy country, and one of the county's most enterprising farmers, is a firm believer in the Herford herd of cattle, and well may he be. During 1915, his three Herford cows presented him with five calves—two sets of twins. Two cows, between December 22, 1915, and January 7, 1917, or in less than thirteen months, added six calves to his herd—three sets of twins and all living.—Central City Argus.

John W. Kirk Dead.

After an illness of several weeks, Mr. John W. Kirk, Sr., died at his home, near Fordsville, Wednesday morning, Jan. 10. He is survived by his wife, one brother, R. P. Kirk, of Owensboro, and ten children, W. G. J. S., O. H., A. D., Areatus, Oda, Ida and Weba, of Fordsville, and E. Kirk, of Owensboro. Funeral services were held Thursday afternoon in Wesley Chapel Methodist Church by Rev. Randy, and interment was in the church burying ground.

Profit-Sharing Sale!

Begins Thursday, Jan. 18--Closes Wednesday, Jan. 31.

To Share in the Profits You Must Pay Cash or Produce Checks for Your Purchases.

Merchandise Charged Will Be At Regular Prices.

BUY NOW, before we are compelled to charge you 20 to 33 1/3 per cent. advance on your immediate **INVEST YOUR MONEY** in merchandise you need now and will need next season for yourself and family.

We have been supplying your needs with merchandise we bought at much lower prices than are ruling to-day. We have generously given you the benefit of these early purchases, and have all along only asked you the advances we have had to pay. **BUT THAT SUPPLY IS EXHAUSTED, AND FOR TWO WEEKS MORE ONLY** we will give you an opportunity to share in the profits by maintaining the ruling prices in force prior to January 1, 1917, which will mean an average saving to you of at least 25 per cent.

With Raw Cotton around 20c per lb., Wool in the grease 45c per lb., Raw Silk more than double the legitimate price in normal times, with everything that enters into the manufacturing of the product of the looms from 50 to 1,000 per cent. higher, it is utterly impossible to think of anything else but much higher prices for Piece Goods, Clothing, Ready-to-Wear, Shoes, Hosiery, Underwear. In fact, nothing we wear will escape. Not since the civil war has such high prices prevailed, and it's war that's the cause of the high prices to-day. Furthermore the demand is much greater than the supply. The retailer is not only confronted with high-priced merchandise, but can we get as much merchandise as we can sell even at the advance prices?

Consider Wisely These Conditions and take warning. This is your last opportunity to buy first quality Fleece and Ribbed Underwear at 50c for garments that are worth to-day 75c per garment. Ladies' Men's and Children's Hose for 10c per pair. All classes of knit goods are 50 per cent. higher and all standard mills have sold their entire production of 1917 on this basis. We have supplemented our regular stock with thousands of yards of Loom-End Calicoes, Ginghams, Percals, Poplins, Crepes, White Goods, Silks, Towels, Organdies, India Linens, Voiles, and many other good things that will appeal to the prudent buyer.

PROPOUND THESE TWO QUESTIONS TO YOURSELF: Shall I buy now and save money, or shall I wait and pay more.

SHOE DEPARTMENT.

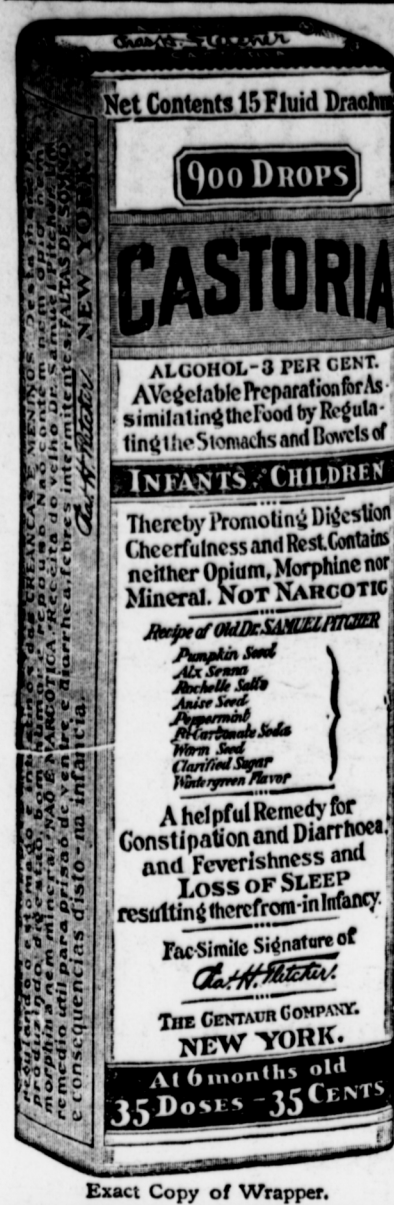

There is no department in this store where you can save
more actual money than in the Shoe Department. It sounds
absolutely unreasonable and ridiculous to hear shoe manu-
facturers talk about the shoe and leather conditions. Yet
we realize more and more every time we buy shoes that
their statements are rapidly coming true. We have already
seen an advance of from \$1.00 to \$2.50 per pair on med-
ium and high grade shoes. They are not in our stock yet
but as soon as this sale closes and our inventory is taken
the last shipment must be stocked.

MILLINERY DEPARTMENT.

As usual this season of the year we have a regular
clean up in this department. We have received a lot of
special Hats for this sale and the price won't be over one-
half of their real value. Some (English Velvets). Trimmed
Hats that will surprise you when you see the hat and hear
the price. Our loss is your gain. We must make room for
the coming spring season.

LEGAL ACTION TO BE TAKEN

Louisville, Ky.—The State Board of Health, at its meeting here recently, announced it would take legal action against a surgeon, whose name was not given, for permitting nurses to administer anaesthetics during surgical operations.

Dr. W. L. Heiser, of Bowling Green, who has been State Registrar of Vital Statistics for the past five years, tendered his resignation on account of having been elected Secretary of the State Tuberculosis Commission. He will take up his new duties at once. Dr. P. E. Blackelby, of Erlanger, Kenton county, was elected to hold the office of Registrar temporarily.

Dr. H. H. Carter, of Shelbyville, was sworn in as a member of the board to succeed Dr. O. C. Robertson, of Middlesboro. He was appointed to the place by the Governor. Dr. John G. South was re-elected President of the board.

TRAIN IN TUNNEL SCENE OF TRAGEDY

Kentuckian Kills Lumber Man, Then Turns Gun On Self.

Huntington, W. Va., Jan. 11.—C. C. Huddleston, wealthy lumberman of this city, was shot to death by Robert B. Franklin, 28, a retail lumber dealer, of Whitesburg, Ky., while they were aboard a Louisville and Nashville train near Hazard, Ky., at 2:30 o'clock this afternoon.

After killing Huddleston with one shot from an automatic pistol, Franklin ended his own life with two shots from the same weapon.

The double tragedy was enacted as the train was passing through a tunnel a mile from Hazard. Passengers saw the flashes of the shots in the darkness, but the reports were muffled by the roar of the train. Most of the passengers were dumbfounded when, emerging from the darkness, they saw the bodies of the two men who had been chatting a few minutes before.

TOBACCO ACREAGE

In Germany Is Steadily Increased Despite the Great War.

According to a publication of the German Imperial Statistical Bureau recently issued, the number of tobacco growers in Germany in 1916 was 85,066, against 60,897 in 1914, and 86,953 in 1913. There were 31,396 acres of tobacco plantations in 1916, against 22,277 acres in 1915, and 25,587 acres in 1914, thus showing a large increase in the acreage under the product.

While Germany is no way a competitor of the United States in the production of leaf tobacco it is a matter of interest to exporters of the weed in this country to note the increase in the area given over to the growing of tobacco at a time when the restrictions of the great war make the proposition all the more difficult. Formerly large quantities of American leaf tobacco found ready sale in Germany, a market which has been practically closed to United States exporters since the summer of 1914.

CIGARETTE SMOKING MAY BE MADE CRIME

A law under which the smoking of cigarettes in Oklahoma would make the smoker liable to arrest is in prospect. A bill with that end was passed by the House of Representatives. The measure would make it unlawful to offer for sale or give away cigarettes.

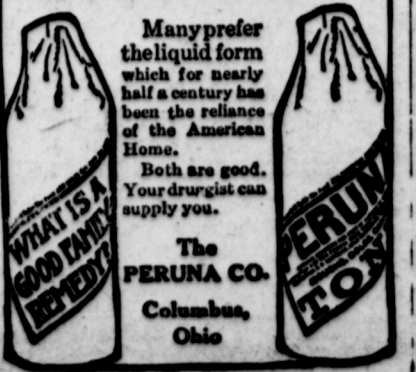

Quick Cold Relief

is usually found through the prompt administration of a mildly laxative, dispersive tonic—one that will scatter the inflammation, remove the waste, and help Nature to build up resistance.

Peruna is That Tonic.

Its action is prompt, usually very effective, and its use is without harmful effects. Every household should keep it at hand for this purpose, and every catarrhal sufferer should regularly use this reliable remedy.

The tablet form will be found very convenient. A tablet or two at the very beginning of a cold will frequently prevent its development, and these tablets may be taken regularly with beneficial results.

How To Check That Cold.

When it is painful to breathe and fever sends chills up and down your back, you are in for a cold. A timely dose of Dr. Bell's Pine Tar Honey will stop the sneezes and sniffles. The pine balsam loosens the phlegm and clears the bronchial tubes, the honey soothes and relieves the sore throat. The antiseptic qualities kill the germ and the congested condition is relieved. Croup, whooping cough and chronic bronchial affections quickly relieve. At all druggists, 25c.—Advertisement.

DOLLAR A MINUTE SINCE BIRTH OF CHRIST

Some Figures on Rockefeller's Wealth By Boston Financier.

While Robert E. Dow, over in Brooklyn, who is editor of the Brooklyn Entomological Society, is trying to convince a doubting public that Adam took Eve as his second wife and that she was a beautiful blonde and a perfect 36, in Boston a financial editor even in the midst of a panicky market figures out that if Jesus Christ had saved one dollar a minute from the time He came to earth, 1,916 years ago, he could not match the wealth of John D. Rockefeller today. Here is what the financial editor says:

"John D. Rockefeller's wealth is now estimated at substantially over one billion dollars. It is a sum so huge few people are able to grasp it.

"Let it be assumed that Mr. Rockefeller was born at the time of Christ, 1,916 years ago next Monday. If it also be assumed that during these 1,916 years, less one week, Mr. Rockefeller earned one dollar for every minute of each day, figuring 24 hours to the day, and seven days to the week. Let it be further assumed that Mr. Rockefeller saved every dollar that he earned during these 1,916 years. No allowance need be made for any living expenses.

"On this basis, working every minute, day and night, for 1,916 years, earning a dollar a minute and saving every dollar earned, Mr. Rockefeller would not have greater wealth today than he is estimated to have accumulated in his brief actual lifetime to date.

"In the 1,916 years since the time of the birth of Christ there have been 1,537 years, having 365 days to the year. There are 1,440 minutes in each twenty-four-hour day. Therefore during the 1,537 years having 365 days there have been 807,847,200 minutes.

"There have also been 479 leap years since the time of Christ, and in these 479 years there have been 252,432,160 minutes. This makes a rough total of 1,060,299,360 minutes from the birth of Christ up to last Monday. And it is estimated that in Mr. Rockefeller's wealth pile there is a dollar for every one of these minutes."—[New York Telegraph.]

Fischer, on the morning of January 9, was held to the grand jury under bond of \$4,000 at his preliminary hearing in the County Court here today. Jones, through his counsel, waived examination after the prosecution had outlined its case to the presiding Judge.

The chief witness at the trial was Aaron Keese, a negro farm hand who said he witnessed the fatal shooting.

ELEVEN FINED \$20,000 FOR SUNDAY VIOLATIONS

New York, Jan. 9.—Eleven saloonkeepers of this city were each fined \$1,800 today by Justice Cobham in the supreme court for having sold a glass of beer or whiskey on Sunday, contrary to law. The court also added \$76.99 for costs, to which the court had been put to prosecute the cases.

As each saloonkeeper was bonded the city and State will divide nearly \$20,000 in fines.
